

A CYBERVENGERS
ADVENTURE

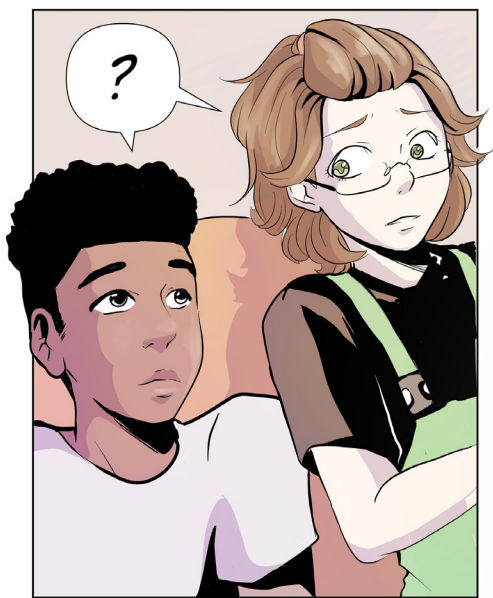

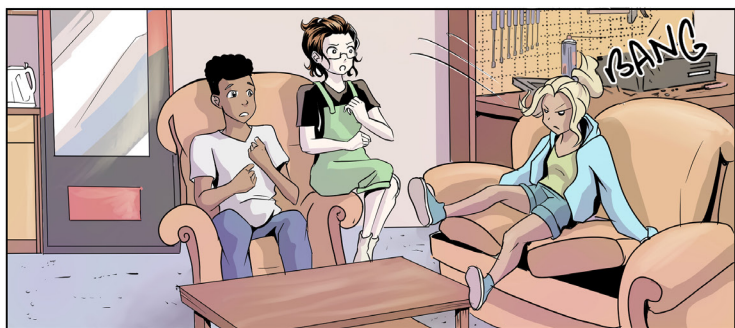

DRAGONS + SHEEP

EPISODE 01

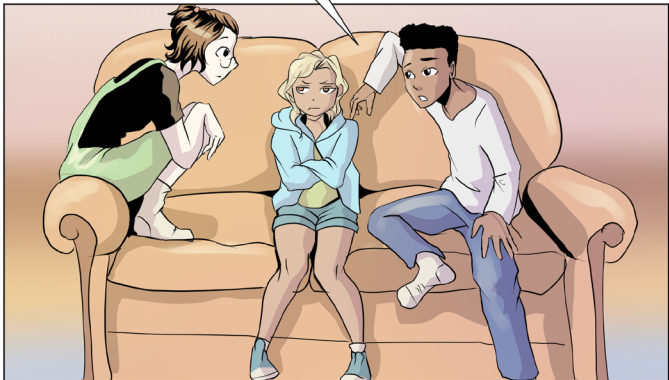

HEY, CLARA!

COME ON. ARE YOU GONNA
TELL US WHAT'S WRONG,
OR ARE YOU JUST GOING
TO SULK FOR THE NEXT
SIX MONTHS?

HAVE YOU HEARD
OF THE GAME
"DRAGONS + SHEEP"?

YESSS!

I LOVE IT!

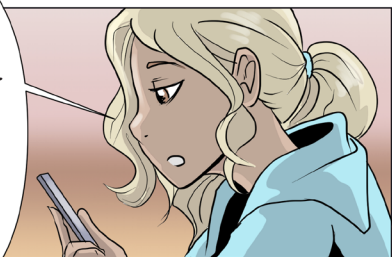

YESTERDAY I WAS
AT LEVEL 234, STILL A
SILVER DRAGON LEVEL,
AND I HAD ONE MORE
LEVEL TO GO BEFORE
BECOMING A GOLD
DRAGON!

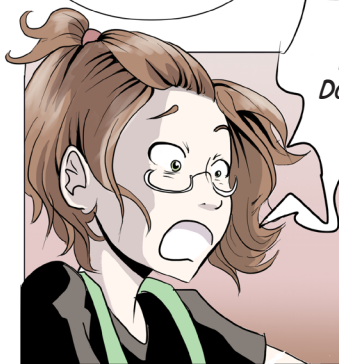

234! WOW! YOU MUST
HAVE PLAYED FOR
HOURS TO GET THAT
FAR!

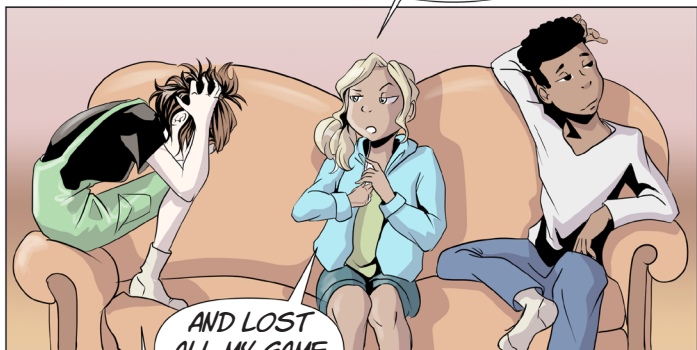

YEAH, I SPENT A LOT OF TIME ON IT. YESTERDAY, I GOT AN EMAIL THAT TOLD ME I'D MADE GOLD DRAGON. ALL I HAD TO DO WAS CLICK ON...

NO, YOU DIDN'T, DID YOU? DON'T TELL ME YOU CLICKED ON IT!

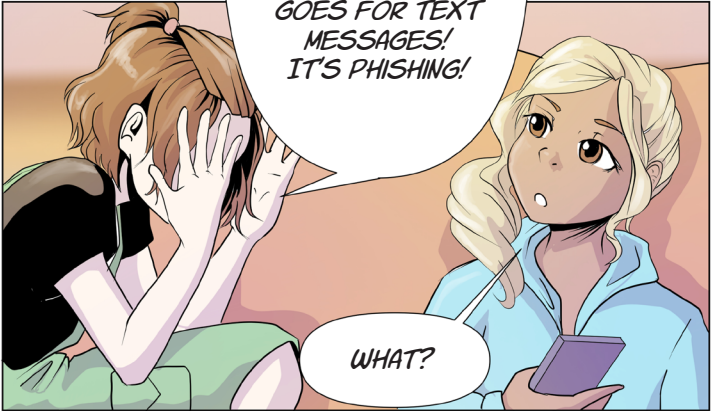

YEAH... I CLICKED ON IT.

AND LOST ALL MY GAME HISTORY.

BUT I TOLD YOU!

I CAN'T BELIEVE IT!
I TOLD YOU A
THOUSAND
TIMES! NEVER, EVER,
CLICK ON A LINK IN
AN EMAIL FROM A
SENDER YOU DON'T
RECOGNIZE! SAME
GOES FOR TEXT
MESSAGES!
IT'S PHISHING!

WHAT?

PHISHING!
LIKE WITH FISH,
BUT FOR YOUR DATA!

THEY BASICALLY TRICKED YOU. IT'S WHEN
THESE BAD GUYS CALLED "HACKERS"
SET A TRAP. YOU THOUGHT YOU WERE
GOING TO BECOME A GOLD DRAGON, SO
YOU TOOK THE BAIT! JUST LIKE A FISH...
I BET YOU GAVE THEM YOUR LOGIN AND
PASSWORD!

YEAH, BUT I...

"BUT" NOTHING! NEVER!
YOU SHOULD NEVER GIVE OUT
YOUR PASSWORDS TO ANYONE!
THEY WERE ABLE TO DRAIN YOUR
ACCOUNT AND TAKE YOUR DRAGONS,
YOUR TREASURE, AND YOUR POINTS!
YOU'RE BACK AT LEVEL ZERO IN
"DRAGONS + SHEEP",
BUT IT COULD HAVE BEEN
EVEN WORSE!

I WARNED YOU...

WHAT DO I DO NOW?

WE NEED TO THINK. MY FAVORITE ROBOT, ROBY, MUST HAVE AN IDEA...

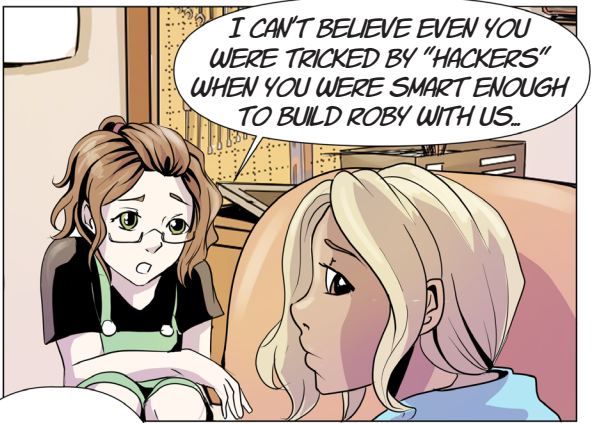

We defend ourselves by attacking them!

WOW, ROBY TALKS NOW?

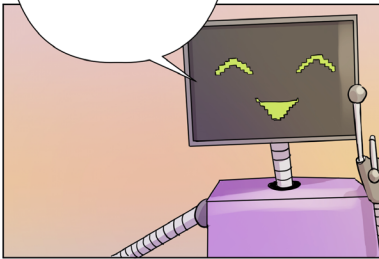

YEAH! HE'S BEEN UPGRADED AGAIN.

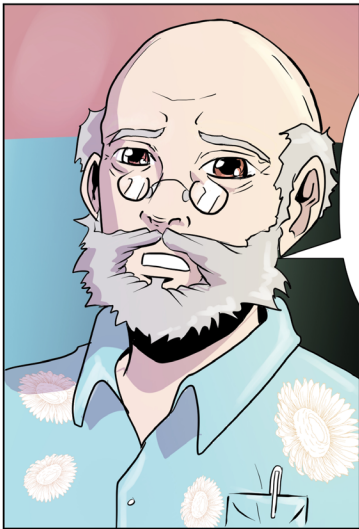

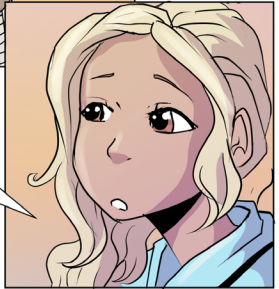

And I think before I click! Here's what I suggest:

Let's trick the tricksters! Can you give me the hackers' email address?

I'M SORRY, I WASN'T THINKING... I DELETED IT.

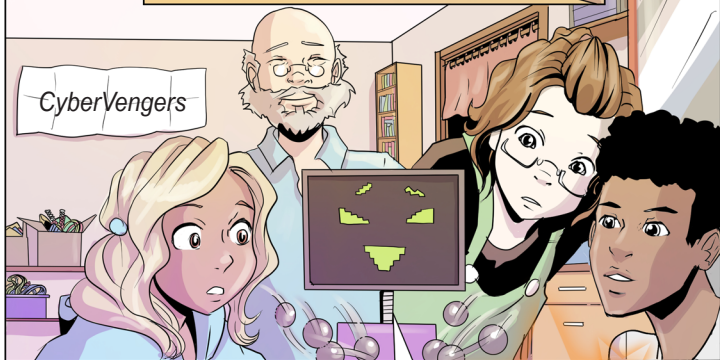

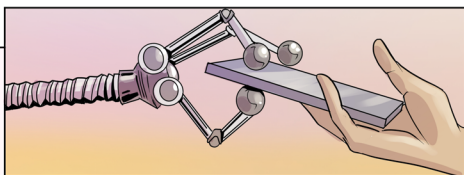

OH SHOOT! SAVE IT, NEXT TIME. IT'S EVIDENCE YOU CAN USE TO REPORT THEM.

IMPORTANT NOTE

Hackers use emotions like fear, a feeling of urgency, curiosity, sympathy, or a desire to win something to make you click on their dangerous links. They can then steal your personal data and pretend to be you online.

Don't worry, I've got a few tricks up my sleeve. We'll find them.

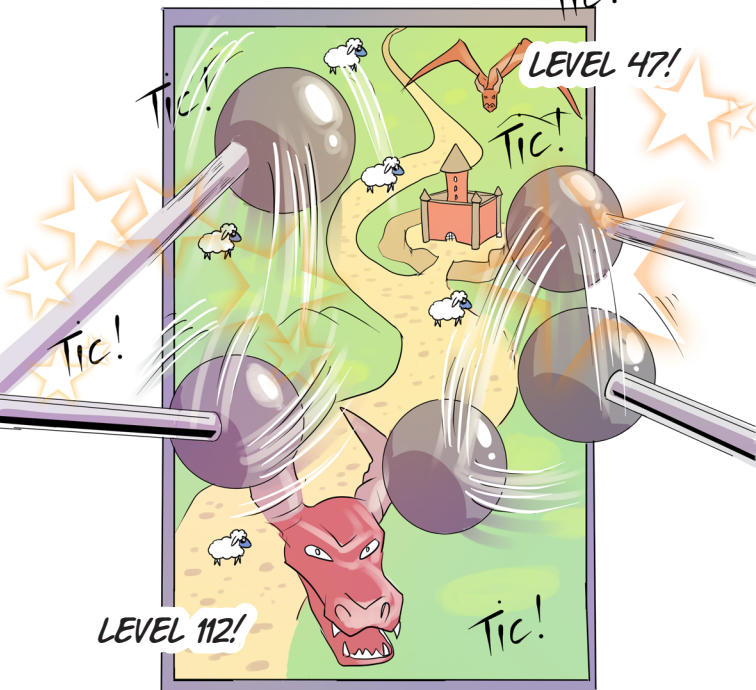

I'm going to start by creating a new Dragons + Sheep profile for you.

Next, I'll play really fast to get to level 234.

Tic!

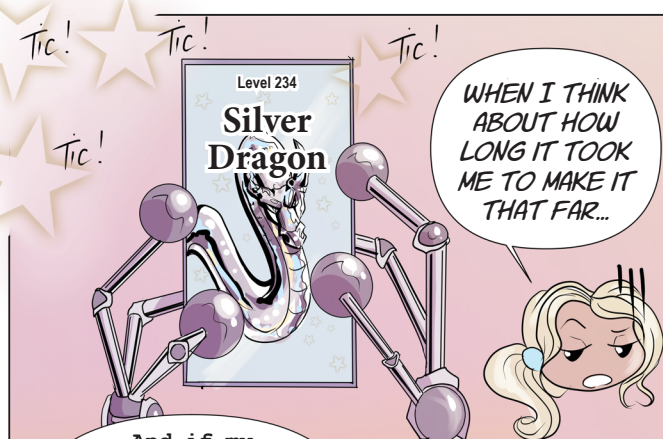

Tic!

Tic!

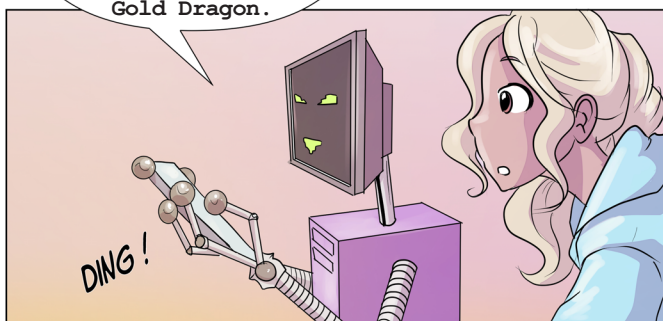

Tic!

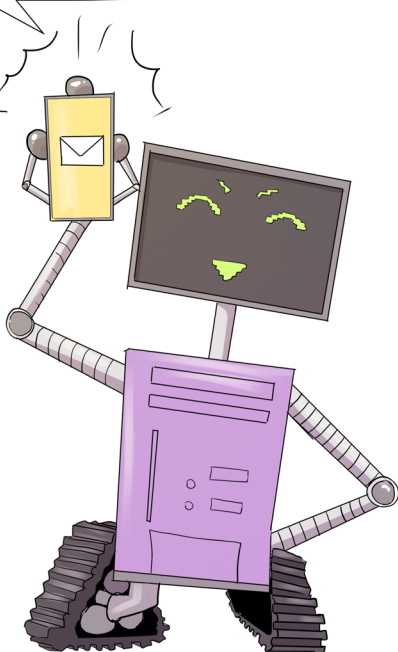

LEVEL 233!

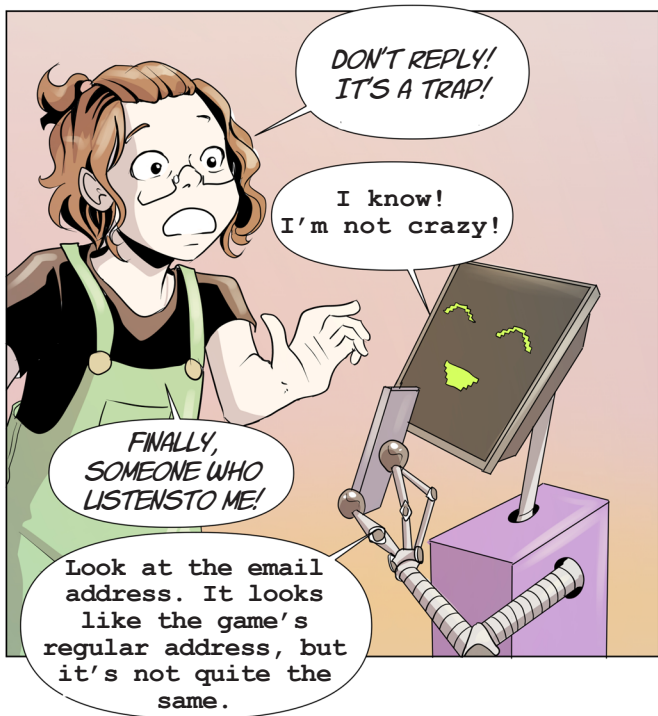

And if my prediction is correct, then as soon as I've reached level 234, I should get the same email the hackers sent you, telling me how to become a Gold Dragon.

Ah-ha! It looks like they hacked players' accounts to get their details and trick them as soon as they get to the last Silver Dragon level. They steal their points and sell them to other players. It's clever, but it's cheating!

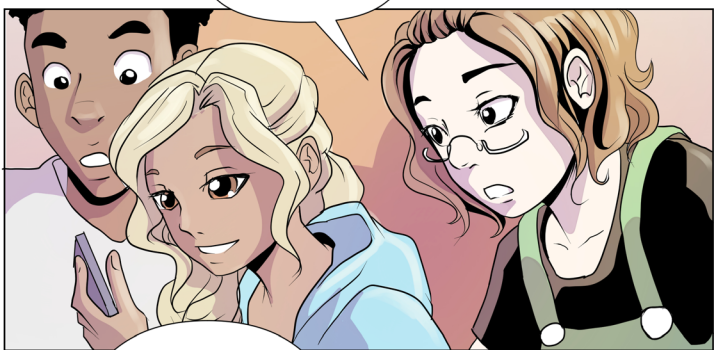

noone@dragonmooton.net

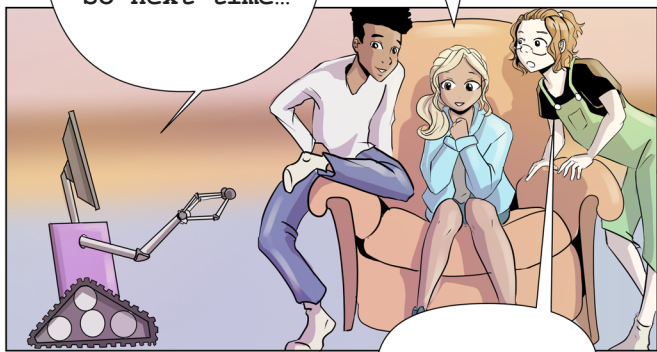

HOW DID YOU DO THAT?

That's my little secret. But Clara, you won't always be able to bounce back like that. So next time...

I WON'T CLICK ON IT.

EXACTLY!

AND A WORD OF ADVICE: TALK TO YOUR PARENTS ABOUT IT.

CyberVengers
